

autoWagon Standards

- Rear Ramp Door with Dual Spring Assist Cables
- 4' Long "No-Show" Beavertail
- Side Door: 30" to 36" Flush Lock or 48" Bar Lock
- .030 Prefinished Aluminum Exterior Skin (11 colors)
- Rear Corner Post Jacks
- Jack Ram Hoist with Sand Pad
- Dome Lights with Wall Switch
- 12 Volt 7-way Pigtail Connector
- Wet Cell Battery Breakaway System
- Corrosion Preventative Compound (CPC) Undercoating
- Safety Chains to D.O.T. Requirements
- Torflex Rubber Torsion Axles
- Silver Spoke Wheels
- Aluminum Anti-Rack Cam Lock
- LED Tail Lights

More Standard Features

Quality Construction - Always One Step Ahead

or bulb style lights.

LED Stop/Tail/Turn

Designed exclusively for Wells Cargo. LED lights are proven to be brighter, more durable requiring less maintenance, and consume 90% less power reducing the load on the tow vehicle's electrical system as compared to traditional incandescent

Wet Cell Battery

Essential part of breakaway system. Applies trailer's full braking capacity for a minimum of 15 minutes meeting D.O.T. requirements. Low voltage indicator light. Up to 100 recharges.

Ramp Doors & Corner Post Jacks

Full width hinge with free floating 3/4" steel pin. Stronger than strap hinges. Won't bind. Welded perimeter door frame with gussets at major stress points. Full length reinforcements prevent bowing. Spring assist cable(s) for safety. Rear corner post stabilizer jacks with steel tube post are coated in Zincdychromate for rust resistance. *(Ramp door standard on certain models only.)*

12 Volt Electrical System

All circuitry distributed from an easily accessible interior junction box. Primary connections made with wire nuts. No hidden splices. All wiring is SAE truck/trailer color coded wire. One central location for all troubleshooting.

Side Doors (Aluminum Hinges)

All door openings are welded with formed steel channel headers and gusseted for rigid anchoring. Exclusive vacuum laminating

process unitizes door components forming a super strong, lightweight door. The polystyrene core provides full insulation while the extruded aluminum trim adds extra rigidity. Resists bowing and warping.

Anodized Roof Cove

Extruded aluminum Roof Cove (with drip rail) provides extra body support and solid anchoring for roof and prefinished

aluminum skin. Special anodizing process assures cove will maintain its "like-new" luster for years with minimal maintenance.

All Aluminum Anti- Rack Cam Lock

Commercial quality cast aluminum Cam Lock and stainless steel hasp deliver a long lasting, no-rust finish for the life of your

trailer. Anti-Rack design (forked Cam with "T" shaped Keeper) forms a structural link between door header and footer reducing door movement, frame torque, and road vibration. Better seal compression to prevent moisture penetration.

Bottom Trim

Extruded aluminum Bottom Trim provides extra body support and solid anchoring for prefinished aluminum skin. Special anodizing process assures trim

will maintain its "like-new" luster for years with minimal maintenance.

Corrosion Preventive Measures

To ward off the damaging effects of rust a Wells Cargo chassis is protected with a laboratory tested, automotive style undercoating. All exposed steel is painted with a state-of-

the-art process including both a primer & urethane topcoat for a smooth, long lasting finish. Also, a special corrosion resistant tape is applied between the steel frame and exterior aluminum skin to prevent electrolysis.

Torflex® Rubber Ride Axles with E-Z Lube Hubs

Equipped with Torflex® rubber torsion suspension system with progressive torque action and independent wheel

movement for maximum shock absorption and road stability. E-Z Lube hubs with outside grease fittings for bearing lubrication without disassembly. E-Coated wheels and brand name tires.

Plus:

- Fiberglass End Caps
- Exterior Grade Plywood Floor (undercoated)
- .030 Aluminum Exterior Skin
- Exclusive Non-Corrosive Screw Fasteners
- Recessed/Lighted License Plate Holder
- Aluminum Roof (4', 5', 6' & 7' wide models)
- Galvanized Steel Roof (8' wide models)
- Jack Ramp Hoist with Sand Pad
- 12 Volt Trailer End Connector

Warranty

Duration of Warranty

Your Wells Cargo equipment, which has been manufactured, tested and inspected in accordance with carefully specified engineering requirements is warranted to the original owner to be free from defects in material and workmanship for the period of six (6) years, except as herein limited, from date of purchase. The obligation of this Warranty shall be limited to repairing or replacing any part or parts which, in the opinion of the Company, shall be proved defective in materials or workmanship under normal use and service during the six (6) year period commencing with the date of purchase. Jack rams, electrical wiring, glass, sealants, doors, seals, locks, paint, plumbing, couplers and jacks are warranted for a period of one (1) year from date of purchase.

This Warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

Limitations and Exclusions

This Warranty shall NOT extend to:

1. Wells Cargo equipment which has been modified, repaired, or altered in any way without the express written consent of Wells Cargo.
2. Unreasonable use (including failure to provide reasonable and necessary maintenance).
3. Tires, axles, axle assemblies, suspension components, ranges, heaters, refrigerators, air conditioners or all other appliances or components of the Wells Cargo equipment which are warranted separately by the respective manufacturers of said components. These warranties are contained in your owners packet.
4. Any consequential damages for breach of this or any other warranty expressed or implied whatsoever. Repair or replacement under this Warranty is the exclusive remedy of the customer. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.
5. Parts not supplied by Wells Cargo.
6. Certain parts which require replacement in the ordinary course of use to normal wear.

Procedure

To secure repair of a Wells Cargo trailer or any warranted parts under this Warranty, the unit or warranted part must be delivered, charges prepaid, to the nearest Wells Cargo manufacturing facility or as directed by Wells Cargo.

Your Wells Cargo dealer from whom you purchased your unit is responsible for the registration of your warranty with the factory. We ask that you cooperate with your dealer in supplying the necessary information completing the warranty card so that we may better serve you.
